Rigol Technologies Announces Expansion of its US Commercial Operation

Beaverton, OR - June 9, 2014, - RIGOL Technologies, Inc. is pleased to announce significant enhancements to its commercial operation which will help the company to continue its rapid growth trajectory and better support its customers.

Mr. Bob Bluhm has been named Vice President of RIGOL Technologies with responsibility for both North American and European operations. Mr. Bluhm arrives at RIGOL with over 25 years of experience in the Test and Measurement industry in product development, operations, and sales; most recently serving as Vice President and General Manager of Value Scope Line of Tektronix and Vice President of Distribution Sales at Tektronix/Danaher.

"We are very excited to have Mr. Bluhm join our team," stated Wang Yue, President of RIGOL Technologies. "His depth of product knowledge and strong industry record brings further credibility to our brand. His background in both product development and distribution management will help us to accelerate our rapid growth in the US and EU as well as help to shape our long term product roadmap."

"RIGOL is in the process of significantly expanding our sales and operations footprint in the US which will allow us to better support our partners and customers. Through the addition of field based channel sales managers, a new operations team, and the opening of a new Beaverton, Oregon based regional operations facility Rigol is demonstrating its long term commitment to this marketplace, our customers, and our partners." Wang Yue added.

"I am very excited to join RIGOL", stated Mr. Bob Bluhm. "It is a company with a broad portfolio of products, a passion for innovation, and a commitment to delivering unprecedented customer value. I look forward to helping establish Rigol's brand and more importantly, delighting our ever expanding customer base."

About RIGOL:

RIGOL is transforming the Test and Measurement Industry. Our premium line of products includes Digital and Mixed Signal Oscilloscopes, Spectrum Analyzers, RF Sources, Function/Arbitrary Waveform Generators, Sensitive Measurement and Data Acquisition products, HPLC and Spectrophotometers. Our test solutions combine uncompromised product performance, quality, and advanced product features; all delivered at extremely attractive price points. Our solutions span many markets including Technical Education, Embedded design, RF Test, Manufacturing, Food Safety, Pharmaceutical, and Water Quality. Across all markets and products we provide our customers with unprecedented value for their investment, reducing their overall cost of test, and helping speed time to completion of their designs or projects.

RIGOL's Headquarters is in Beijing China with a new state of the art R&D and Production Facility in Suzhou, and two International subsidiaries in Beaverton, OR, United States and Munich, Germany. Over 400 employees are serving our customers in more than 60 countries and regions worldwide.
