Electro-Meters

Electro-Meters

For more than 50 years, Electro-Meters has provided our customers with innovative, quality solutions across a wide spectrum of products, services and turnkey systems. Our integration department excels in quality workmanship, providing products and solutions to meet our customers' specifications.

The Electro-Meters Difference

As a vertically integrated company, Electro-Meters provides off the shelf and customized solutions that address measurement challenges without compromising requirements.
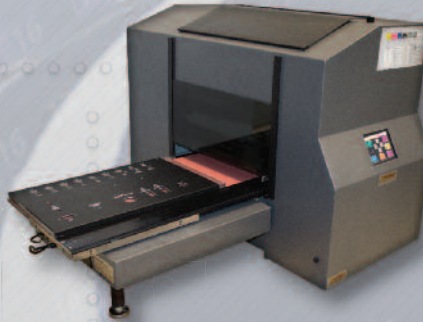

Electro-Meters
Technology for all your measurement needs...
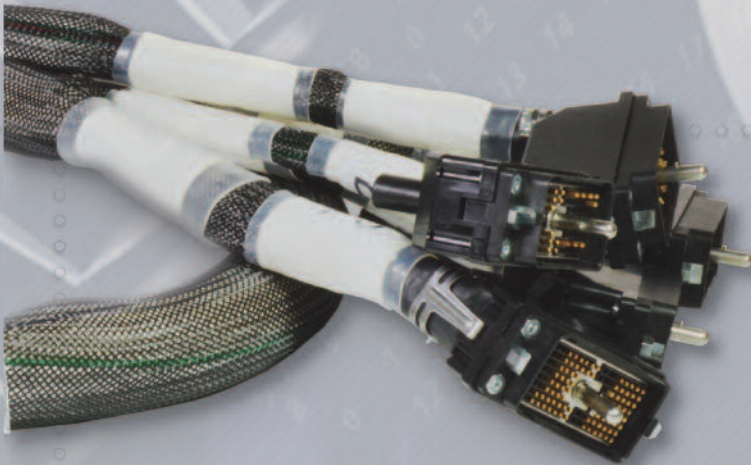

Build and Product Integration

Build to Print Solutions

Electro-Meters has the tools, manpower and experience to complete your project on time and budget.

Our Staff:

Our technicians, machinists and graphics personnel are highly skilled professionals with many years of experience. The end result is quality, efficient workmanship, allowing Electro-Meters to keep your costs low and maintain your schedule.

We provide:

CNC fabrication, AutoCAD services, Graphics, Screen printing and *turnkey* design, all done in-house to provide our customer efficient timely production.

Total in-house production ensures product repeatability and quality control over all aspects of fabrication.

Installation, commissioning and training are all part of each Electro-Meters build projects.

About Electro-Meters

Electro-Meters is a leading supplier of test instruments, hand held and portable instruments as well as meters, indicators, transformers and controllers. For over 50 years we have provided service and support for products that are manufactured by the world's leading suppliers.

Support - Technical and Logistical

Whether you need technical assistance in selecting a product, need electrical approval, or are designing a turnkey solution, we are here to help. By teaming with our suppliers, we provide the level of support that you would expect from one of Canada's leading organizations.

Instrument Repair, Calibration & Warranty

We provide full warranty support for all of the products we sell. We also offer on-site service contracts.

Legally Compliant

All of the products we ship into Canada can be modified as required to achieve electrical approval.

Cross Canada Coverage

We have staff across Canada that can support you in both of Canada's official languages.
